Today: CAFOD - Creation MASS - Climate change affects our homes, our health, our heritage and our beautiful landscapes. Our community centres where we meet, our sports fields where we play and our places of pilgrimage where we *reflect* and pray. Climate change ruins the work we do to fight poverty and to live better lives.

We have already made huge progress on climate change and scientists know more than they ever have. But things are urgent now. Climate change affects living creatures and the beautiful world that God has created. So, as Christians, we have a part to play in the response.

A *Creation Celebration* is a great opportunity to bring your Parish or community together to act on the biggest issue of our time - climate change. We are all part of God's creation and we are called to care for, protect and *restore* our common home, the earth.
